5th 2020 · 09-10 November Global Bauxite Conference

Tianjin · China

5th 2020 · 09-10 November

Global Bauxite Conference

Tianjin · China

Event Background

China's Imports and Exports:

In July 2020, China imported 11.014 million tons of bauxite, up 5.4% month-on-month and 21.5% year-on-year. Of these, Guinea 5.8476 million tons, Australia 3.3861 million tons and Indonesia 1.5156 million tons, accounting for 97.71 percent of the total ratio;

China's alumina exports in July 2020 were 2500 tons, with a cumulative export of 100,000 tons in January-July, while July's imports of alumina amounted to 417300 tons and January-July's total imports of 2.3272 million tons, an increase of 341.2% YoY. Net imports of alumina in June were 414700 tons, while total net imports from January to July were 2.2848 million tons.

Global Bauxite Situation:

Global bauxite production is expected to decline by 0.1 per cent to 344 million tons in 2020.

Australian production is expected to grow 1.9 per cent this year to 107.2 million tons, or nearly a third of global production.

There were no major obstacles to bauxite after it was cleared during India's first 21-day blockade. As a result, the country's bauxite production is expected to grow by 6.5% by 2020.

Although Chinese mines are expected to resume in mid-April, bauxite production is forecast to fall by 1.8 per cent this year. Brazil's decline is likely to be even more pronounced, with production falling by 4.2%, mainly due to lower ore production.

Smaller bauxite producers have been hit harder by the pandemic crisis, with Indonesia, Jamaica, Russia, Kazakhstan, Ghana and Guyana expected collective production to decline from 37 million tons in 2019 to 33.8 million tons in 2020. These countries will account for 10.8% of the world's bauxite in 2019, but that share will fall to 9.8% this year.

Purpose of the Conference

The 5th Global Bauxite Summit will focus on the demands of the industrial chain, build a bridge of communication, explaining the development trend of the global bauxite market, China's import bauxite development potential. This Event will be an excellent platform for you to find new investment cooperation opportunities and expand your global business landscape.

We will provide you with cutting-edge information, professional services and rich resources, join hands to draw a bauxite new map 2020!

Sponsor Opportunities

- 1 Booth sponsorship** - better display of your products and services
- 2 Presentation sponsorship** - increase your industry visibility and influence
- 3 Coffee break, delegate card, table brand sponsorship** - increase your logo exposure
- 4 More forms of sponsorship** - welcome to inquire

A New Trend for the Coastal Construction of Alumina in China

Guangxi Huasheng

Guangxi Huasheng Project is a major project of Chalco Group to implement the "two-sea strategy" and Guangxi to promote the second venture of metallurgical industry, is to make use of Chalco's overseas bauxite resources, relying on the advantages of large-scale deep-water port in anti-city port, good port-facing industrial park construction foundation, as well as rich nuclear power, fire and electricity energy construction of ecological aluminum industrial base. The first phase of the 2 million tons of alumina project, with an investment of 6 billion yuan, started in October 2018 and was completed and put into operation by the end of June this year.

Bosai Group

On the morning of November 22, 2019, Bosai Group officially signed a new project with an annual output of 3.6 million tons of special aluminum with a total investment of 7.5 billion yuan in Wanzhou, which is also the largest single investment project in Bosai Group's history!

Chifeng Qihui Aluminum

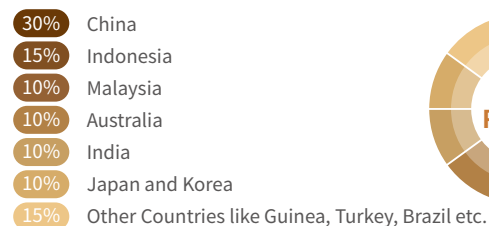

On December 27, 2019, the signing ceremony of the design contract for 6.5 million tons of alumina project was held in Shenyang.

2020 · 09-10 November

Global Bauxite Conference

Tianjin · China

November 9 Monday Conference Check-in

November 10 Tuesday Keynote Speech

Bauxite

9:00-10:00 Mine owner's business introduction—each online bauxite owners has 10 min to introduce their bauxite projects

Confirmed companies: BEYLER METAL MADENCILIK AS , Alliance Minière Responsable

10:00-10:40 The Global Aluminium Industry in a Post-Covid Economy

- Impact of Covid on the aluminium industry
- Changing opportunities for aluminium after Covid
- The importance of sustainability and Meeting customer expectations.

Miles Prosser, Secretary General at International Aluminium Institute

10:40-11:20 Imported Bauxite Application in China Alumina Plant, Production cost and profit control of imported bauxite in inland alumina plant

Du Liangqiang, Vice General Manager, Shandong Lubei Group

11:20-12:00 Mining in Africa and Its Future

- Mining History
- Current mining Situation
- Future of mining in Africa and its impact on African development

Sonny Doumbouya, Deputy CEO, Alliance Minière Responsable

14:00-14:40 Bauxite and alumina market in Indonesia

Ryan Sjah, VP Base Metal Sales & Marketing, PT ANTAM

Theo Li

86-13788945363

2020 · 09-10 November

Global Bauxite Conference

Tianjin · China

14:40-15:20 Bauxite development in Australia and price trend of Australian alumina

Marghanita Johnson, Executive Director, Australian Aluminium Council

15:20-16:00 Domestic bauxite market in China, alumina production capacity distribution and new capacity

Confirming: Hatch China

16:00-16:40 Bauxite and alumina market in India

Inviting: Ashapura

16:40-17:20 New Alumina Projects

- *Introduction to Bosai Wanzhou project*
- *Introduction to Chifeng project of Jinguotou*
- *Introduction to Caofeidian project of Wenfeng*

17:20-18:00 Other Downstream and applications--- Logistics cost, freight and terminals distribution
